- Apparently a weld broke on Mr Mitchell’s gopher at BnB on Sunday- as he started to fall Geoff and Doug made a grab- one for John and one for the Gopher. One (who will remain nameless) grabbed the handle bars and in doing so pressed hard on the reversing accelerator – chaos reigned supreme but eventually with the smell of burning rubber, dignity was restored.

Guest Speaker for the evening was Hillary Lee

- Occupational Therapist
- Master in Science

- Researcher and publicist on dementia and aged care
- Coordinator of “ The Spark of Life Program”
- International Awardee

PP Ron introduced Hillary lee, who presented to the club the spark of life program.

The programmed is aimed at Dementia sufferers, particularly those residing in aged care facilities.

Research has shown that the target group often loose the will to live/continue and this then manifests itself in a number of issues. Although dementia can nor be cured it is hoped that, through the program, the spark of life may be rekindled both for the benefit of the dementia sufferer and their family

She presented a DVD case study showing the remarkable improvement that clients could attain through the program

The Program had (last week) won a major international award for its benefits and outcomes

Questions from the club showed that the members saw the potential and wished her every success
